Dear Valued Customer:

On October 1<sup>st</sup>, 2000 APV North Americas, Inc. entered into an exclusive Technology and Trademark Licensing Agreement with Energy Steel & Supply Co. of Auburn Hills, MI.

This agreement covers the exclusive manufacturing and distribution rights for our full line of commercial and nuclear "safety-related" pump replacement parts at all nuclear facilities in the United States and the Republic of Korea.

As you know, US NRC Generic Letter 89-09 stipulates that replacement parts for existing systems/components must be procured from the original equipment manufacturer (OEM) if available. Energy Steel will be able to provide our complete line of nuclear quality replacement parts.

We are pleased to have chosen Energy Steel for the manufacturer of APV replacement parts. Their commitment, experience and technical ability to manufacture our replacement parts made our choice an easy one. Energy Steel will be able to provide you with the level of support and follow through the nuclear industry demands.

Effective immediately, please send all inquiries for your APV pump parts directly to your Nuclear Sales Engineer at Energy Steel & Supply Co.

Phone: 248-377-4990  
Fax: 248-377-2338  
E-mail: [sales@energysteel.com](mailto:sales@energysteel.com)  
Web: [www.energysteel.com](http://www.energysteel.com)

APV looks forward to this relationship and know that our customers will benefit as well.

Sincerely,

Richard A. Johnston  
Director of Marketing and Distribution
